How to Connect to "Taylors Student" Wi-Fi on an Android Device
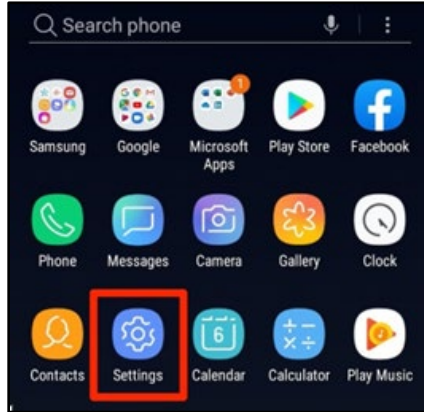

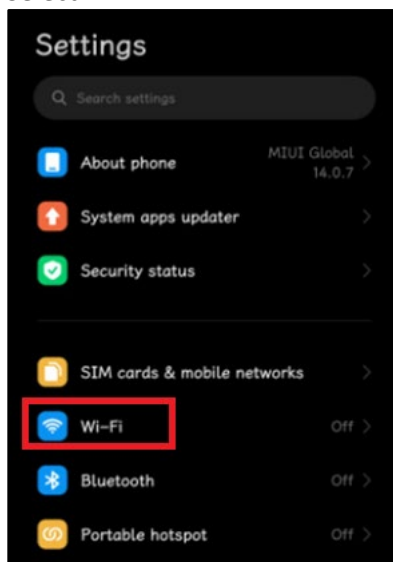

1. Swipe down from the top of your Android screen or go to the App menu to open the Settings app.

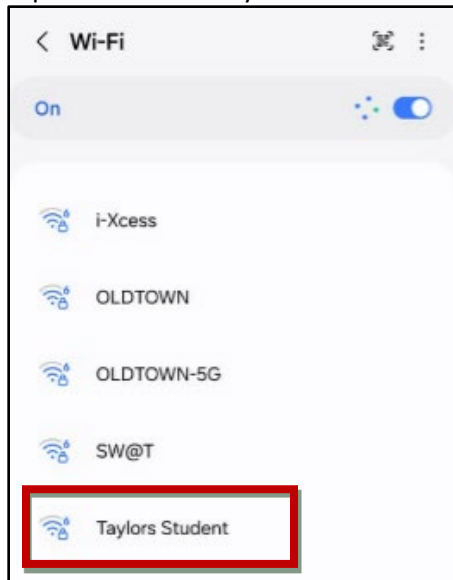

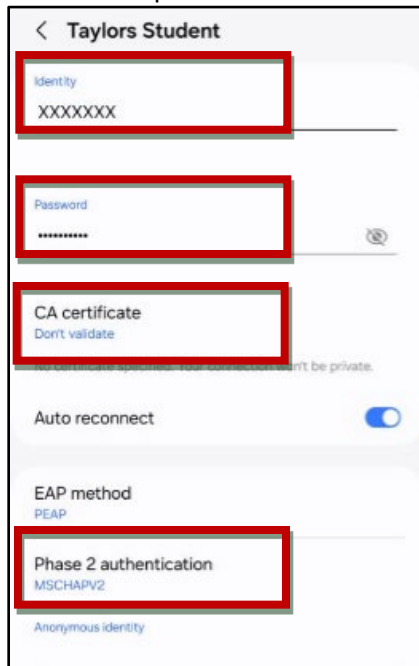

2. Select 'Wi-Fi'.

Please note, on certain Android devices, this option may be listed under 'Network & Internet'.

3. Tap to select the 'Taylors Student' Wi-Fi network, previously known as 'i-Xcess'.

4. After you've selected the 'Taylors Student' Wi-Fi, a dialog box will appear. At this point, click on 'Advanced Options'.

5. After clicking on "Advanced Options," you will be presented with the necessary fields to set up your connection to the "Taylors Student" Wi-Fi network. Please fill in these fields as instructed.
   *EAP Method:* PEAP
    Phase 2 Authentication: MSCHAPV2
    CA Certificate: Do Not Validate
    Identity: (Student ID)
    Password: (Student Email Password)
    Once done you may proceed to click "Connect."

6. After successfully connecting to the "Taylors Student" Wi-Fi network, you can open your browser to verify the connection. If you're able to browse the web, then the setup was successful. Enjoy your internet access!
